

GROW WITH US

FIELD ENGINEER GRANDE PRAIRIE, AB – RED DEER, AB – ESTEVAN, SK

Packers Plus is the pioneer of open hole, multi-stage horizontal fracturing and we provide technology-based solutions to the oil and gas industry around the world. We are currently recruiting for Field Engineers across our Canadian service centers.

Primary Role Focus

Ensure projects run correctly and safely as outlined in the sales proposal by training and coaching clients at well sites in Packers Plus standards and procedures. Resolve performance issues promptly through the Packers Plus support network.

- Reports to Service Center Manager, additional projects reporting to the Regional Engineering Manager

Key Tasks and Responsibilities

- Verify shipments to client locations against sales proposal and perform a quality check on all tools, parts and equipment
- Upon arrival at client's location, coordinate with Company Representative to verify project timings, expectations and identify factors, actual or potential, that may impact service
- Complete ongoing updates to field reports and other documentation
- Facilitate meetings to train and inform crews on Packers Plus tools, procedures, standards and operational plans
- Facilitate meetings to reinforce safety procedures and protocols with crews
- Coach and assist crews as projects are being installed and operated to ensure operational excellence
- Identify safety concerns as they occur and resolve promptly
- Collaborate with client and crews to ensure project is performing correctly
- Document and immediately inform the Service Centre as quality or technical problems arise
- Document and immediately inform the Service Centre and Sales Team if a problem with the sales proposal is identified
- Build relationships and enhance customer intimacy by ensuring a superior level of client satisfaction is achieved and maintained
- Guide and participate in product launch, gathering detailed data, preparing reports and making recommendations on special projects
- Provide support and assistance in the Service Centre shop when not in the field
- Complete other tasks as requested by the District Coordinator or Service Centre Manager
- Participate in the training and mentoring of other Field Specialist when requested
