Performance Applications Engineer – Calgary

Packers Plus is the pioneer of open hole, multi-stage horizontal fracturing and we provide technology-based solutions to the oil and gas industry around the world. To support our dynamic growth, we seek a top notch professional for the position of **Performance Applications Engineer** in our head office.

The Performance Applications Engineer will benchmark performance of Packers Plus solutions with respect to well productivity and operational and environmental efficiency.

Key Tasks and Responsibilities

- Identify topics, research, and write technical documents including SPE papers, whitepapers, case studies and technical product overviews
- Document and review installations/Product Launch and provide feedback on design modifications and procedures
- Complete post-job analysis, summarize results, identify risk factors and propose alternate solutions, document lessons learned, then write Case Histories and develop Best Practices
- Provide application engineering support to Canadian Business Unit

Educational Requirements

- Degree in earth science, engineering, or related field of study, with strong writing background
- H2S, First Aid and WHIMS
- APEGGA/ASET membership an asset but not required

Competencies, Skills and Experience

- Solid understanding of research or data analysis
- Excellent interpersonal skills
- Conceptual and analytical thinker
- Lots of initiative, self-motivated
- Strong written and oral communication skills
- Enthusiastic, driven to find answers and learn quickly
- Field experience preferred, with a background in completions technology and firm understanding of applicable terminology an asset
- Computer savvy with strong proficiency in MS Office (Word, Excel, Outlook, PowerPoint).

About Packers Plus

Packers Plus Energy Services is the pioneer of open hole, multi-stage horizontal fracturing systems with locations in the United States, Canada and around the world. Staffed with some of the industry's best completions personnel, Packers Plus provides technology-based solutions to the oil and gas industry around the world.

We are unlike any other completions company. Ingenuity in product design, combined with customer intimacy, operational excellence, and knowledge of the needs of producers sets us apart from the pack. Look for the introduction of a number of exciting, new and innovative products which are designed to reduce well costs, improve production, and maximize profits.
