Do you want to be valued for your skills, your experience, and your initiative?*

Technical Services Engineer Calgary

Packers Plus is the pioneer of open hole, multi-stage horizontal fracturing and we provide technology-based solutions to the oil and gas industry around the world. We are looking for a **Technical Services Engineer** in our corporate head office in downtown Calgary.

The **Technical Services Engineer** will provide engineering and technical support on the application of downhole completion tools and equipment.

Key Tasks and Responsibilities

- Monitor completion, installation and stimulation projects
- Maintain engineering aspects of product designs
- Finalize technical specifications
- Participate in product launch
- Complete post-job analysis (summarize results, identify successes and risk factors)
- Provide engineering support to our field locations as required

Educational Requirements

- Degree in engineering or Diploma in engineering technology
- APEGGA/ASET membership or member in training

Competencies, Skills and Experience

- Possess technical expertise in engineering principles
- Highly organized, with an ability to develop plans and accomplish objectives
- Ability to work effectively with others in a multi-disciplinary, multi-background team environment
- Highly analytical with a sense of urgency to meet deadlines
- Excellent verbal and written communication skills
- Energetic, adaptable and with a high level of initiative
- Solid proficiency with MS Office (Word, Excel, PowerPoint, Outlook)
- Previous Oil and Gas experience with a background in completions and/or down hole tools is an asset
- Field experience is an asset

About Packers Plus

Packers Plus Energy Services is the pioneer of open hole, multi-stage horizontal fracturing systems with locations in the United States, Canada and around the world. Staffed with some of the industry's best completions personnel, Packers Plus provides technology-based solutions to the oil and gas industry around the world.

We are unlike any other completions company. Ingenuity in product design, combined with customer intimacy, operational excellence, and knowledge of the needs of producers sets us apart from the pack. Look for the introduction of a number of exciting, new and innovative products which are designed to reduce well costs, improve production, and maximize profits.
