District Technical Services Engineer US District Offices

Packers Plus is the pioneer of open hole, multi-stage horizontal fracturing and we provide technology-based solutions to the oil and gas industry around the world. We are looking for a **District Technical Services Engineer** in our US District offices.

Primary Role

- The District Technical Services Engineer is responsible for identifying and solving all Engineering/Operational related problems occurring in the Field District.

Key Tasks and Responsibilities

- Identify district related problems, determine course of action and implement a solution according to Non-Compliance Report (NCR) classification
- Work to eliminate job problems, and having primary responsibility for resolving Field Trouble Reports (FTR's) and NCR's before, during, and after problems occur
- Guide and participate in product launch activities, gathering detailed data, preparing reports and making recommendations
- Review, update and maintain current operational and technical procedures, with an emphasis on developing procedural records to case histories
- Act as liaison between field and technical services, communicating any innovative ideas, suggestions, recommendations or concepts to the design team for further development

Educational, Physical and Safety Requirements

- A degree or diploma in a related engineering discipline is required (petroleum, geology, mechanical)
- H2S certification
- Clean driver's abstract

Competencies, Skills and Experience

- Ability to identify issues, determine possible solutions, and take action to resolve issues
- Possesses technical expertise in engineering principles, Packers Plus technology, and district area formations
- Highly organized, with an ability to develop plans to accomplish objectives and complete work using resources effectively
- Ability to work effectively with others in multi-disciplinary, multi-background team to identify and resolve issues
- Previous Oil and Gas experience required with a background in completions or down hole tools
- Ability to clearly convey information and ideas to others (co-workers, customers, cross-functional teams) through a variety of media (verbal, written, presentations, reports)
- Advanced proficiency with MS Office (Word, Excel, Powerpoint, Outlook) and Solidworks

About Packers Plus

Packers Plus Energy Services is the pioneer of open hole, multi-stage horizontal fracturing systems with locations in the United States, Canada and around the world. Staffed with some of the industry's best completions personnel, Packers Plus provides technology-based solutions to the oil and gas industry around the world.

We are unlike any other completions company. Ingenuity in product design, combined with customer intimacy, operational excellence, and knowledge of the needs of producers sets us apart from the pack. Look for the introduction of a number of exciting, new and innovative products which are designed to reduce well costs, improve production, and maximize profits.
